

CMPT 383: Vitamin #8

Anders Miltner
miltner@cs.sfu.ca

Due Nov 15

Introduction

This Vitamin is to help you practice getting Rust to compile. There is no test suite – you simply have to update the exercises in the manners described.

We have omitted all imports. If you import additional functions, you may get a zero on the assignment. The comments at the top of each file describes the possible modifications you can make.
